Movie series: "Sustainable Truth?"

In Transition 2.0 captures inspiring and positive stories of initiatives which make change happen all-around the world. You will see communities printing their own money, growing food everywhere, localising their economies and setting up community power stations. The screening of "In Transition 2.0" is part of BE THE CHANGE, the HU series for change-makers. How can we make a positive difference in the face of unprecedented environmental challenges? As communities and individuals, where should we begin?

Our invited Guest Speaker is Sara Nelson. She is the Coordinator / Project Manager Assistant of Ett Grönare Lund which embraces local environmental projects focusing on organic urban farming along with children and youth in eastern Lund.

**All our movie screenings are free of charge
with free fika after the screening!**
